

## Patient Centered Medical Home:

### WELCOME TO YOUR MEDICAL HOME!

#### **Our responsibility to you:**

- Coordinate care between your health care team.
- Provide evidence-based care for patients.
- Offer the patient and family self-management support to include educational resources and current literature regarding specific health issues.
- Provide the same access opportunity for all patients to see their provider/clinical care team.
- Give information to uninsured patients in reference to obtaining coverage
- Give instructions to transfer records at any given time to include a contact at the practice
- For an extended list of services please go to our website.

#### **Patient Responsibilities:**

- Provide a complete medical history including any care provided outside of our practice.
- Keep us updated with insurance changes
- Take medicines as prescribed, keep all scheduled appointments, ask any questions and tell us when you do not understand something
- If your child needs emergency care or is admitted to any hospital, let them know that Pediatric Associates of Kershaw County is your medical home.
- Give us feedback to help us improve our care.
- If you would like to change practices, please ask the staff for a Patient Transfer Form
- You can find information about our providers [here](#)
- You can find a link to our new patient packet with all required documentation [here](#).
- You can find helpful resources linked [here](#)
